

*Your design is the most important part of your button.  
The display area is the front flat area of button, before  
it starts to curve around the edge of the button.  
The bleed area is so that your background colors go all  
the way around the edge of the button to the back.  
At ButtonStar, you can view the guidelines for preparing  
your art for buttons; view 1,000's of buttons designs  
for ideas; get art for you button image; and sent you  
image directly to ButtonStar.*
